Authorization for this examiner's amendment was given in a telephone interview with Lois A. Gianneschi on October 24, 2003.

The application has been amended as follows:

1. Claim 1, line 2 delete "300 comprising at least one surface that" and insert therein --300 mm<sup>2</sup> and comprising a front surface and back surface of the lens wherein at least one of the front and back surfaces--; and
2. Cancel non-elected claims 6-15.

**Reasons for Allowance**

The following is an examiner's statement of reasons for allowance: none of the prior art either alone or in combination disclose or teach of the claimed combination of limitations to warrant a rejection under 35 USC 102 or 103. Specifically, none of the prior art either alone or in combination disclose or teach of the claimed progressive addition lens comprising a normalized lens distortion as claimed, comprising a progressive and a regressive surface, and specifically further wherein at least one of the front and back surfaces of the lens is a composite of a progressive and a regressive surface.

Examiner's Comment

The information disclosure statement filed August 15, 2003 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each U.S. and foreign patent; each publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. Specifically, a copy of the cited reference "PCT International Search Report dated May 7, 2003 for application number PCT/US02/07943" has not been provided and therefore this reference has been crossed out and has not been considered.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
